BODY CONDITION SCORE

Assess your pet's weight by completing the BCS!

PROCEED TO BCS

What is the BCS?

The Body Condition Score (BCS) is a veterinarian-approved tool for assessing a pet's weight. You can use it to estimate whether your pet is at an ideal weight.

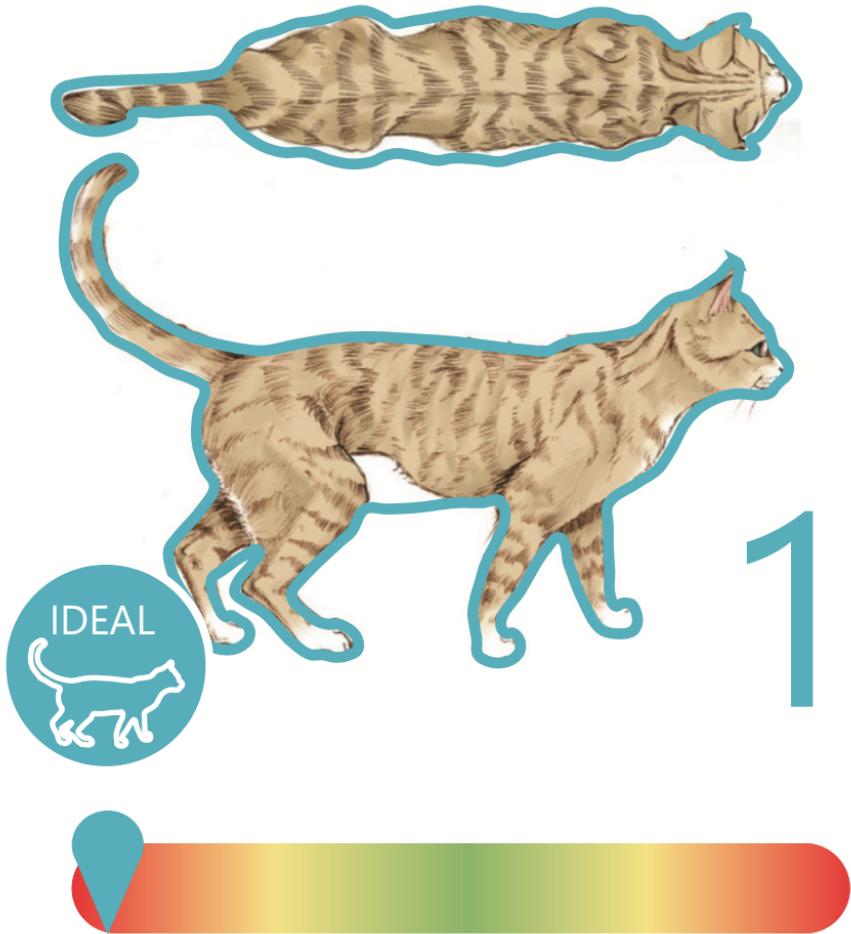

What does it require?

Not much! You will do a visual and simple physical assessment of your pet by feeling their ribs.

Where can I learn more?

Visit kitbit.com/bcs

BODY CONDITION SCORE

EMACIATED

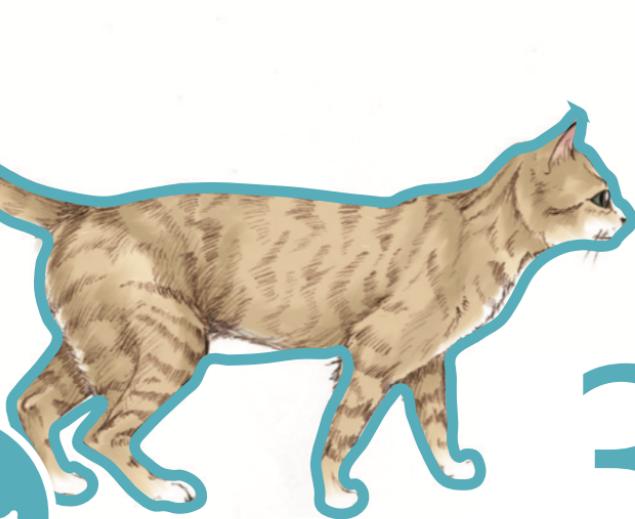

Ribs, spine, and pelvic bones easily visible (on shorthaired cats). No palpable fat. Very narrow waist. Severe abdominal tuck.

THIS IS MY PET

BODY CONDITION SCORE

IDEAL

3

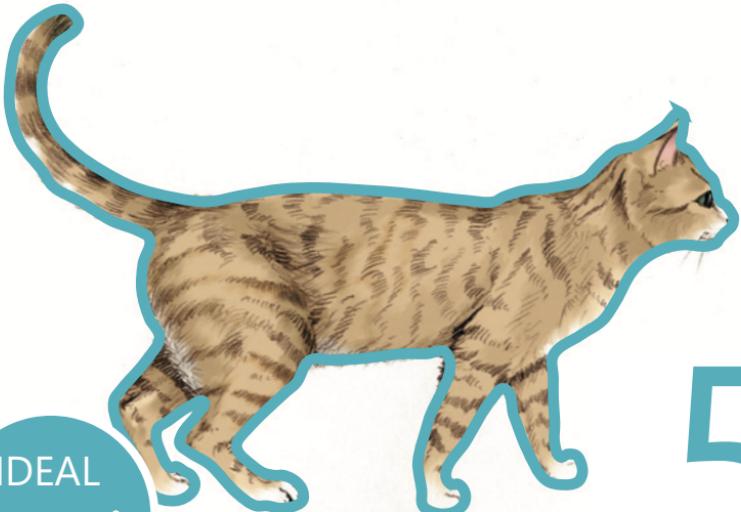

THIN

Ribs visible (on short-haired cats). Obvious waist. Very small amount of abdominal fat. Marked abdominal tuck.

THIS IS MY PET

BODY CONDITION SCORE

5

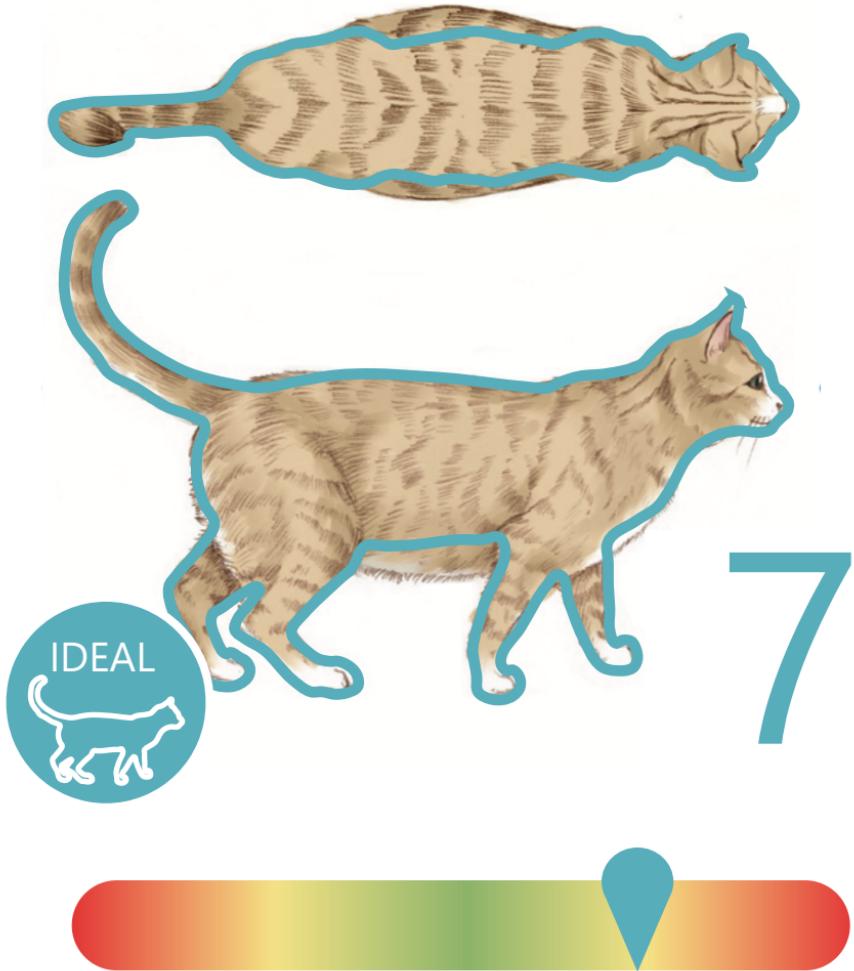

IDEAL

Well proportioned. Ribs not visible, but easily palpable. Obvious waist. Small amount of abdominal fat. Slight abdominal tuck.

THIS IS MY PET

BODY CONDITION SCORE

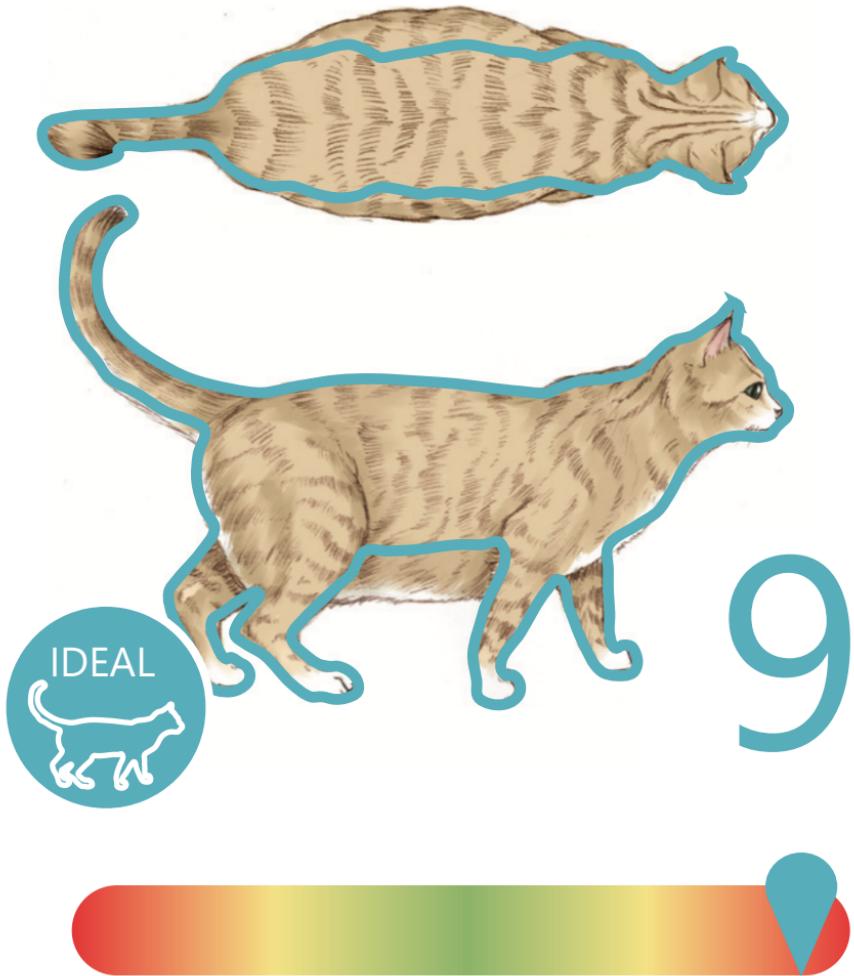

OVERWEIGHT

Ribs difficult to palpitate under fat. Waist barely visible. No abdominal tuck. Rounding of abdomen with moderate fat pad.

THIS IS MY PET

BODY CONDITION SCORE

OBESE

Ribs not palpable under a thick layer of fat. Waist absent. Obvious abdominal distension. Extensive abdominal fat deposits.
